Skype: nauroze2
Phone: +1 (404) 428-5426

Education **Georgia Institute of Technology**

Ph.D., Electrical & Computer Engineering, 2019.

Thesis: *Additively Manufactured Origami-inspired “4D” RF Structures with On-demand Continuous-range Tunability*

M.Sc., Electrical & Computer Engineering, 2018.

Management of Technology Certificate, Scheller School of Business, 2018.

Royal Institute of Technology

M.Sc., Electrical Engineering, 2008.

Major: Wireless Systems

University of Engineering & Technology, Taxila

B.Sc., Computer Engineering, 2005.

Research **Amazon Lab126, CA (USA)**

Co-op – RF Desense Engineer

Project: Smart Noise Immune Antennas for Alexa-enabled Devices

Key responsibilities:

- Model noise due to data transfer between memory & processor.
- Study effect of desense due to changes in noise location & polarization.

ATHENA Lab, Georgia Institute of Technology (USA)

Graduate Research Assistant

Projects:

- Origami-inspired inkjet-printed RF structures.
- Multilayer flexible X-band (10-12 GHz) antenna arrays for CW radars.
- 3D-printed smart encapsulations for SoP solutions integrated mm-wave (26-40 GHz – Ka Band), RF components and shielding.
- Research highlighted at various national & international media.

Other responsibilities:

- Supervised high school teacher under GT STEM Teacher Leadership Program (STLP).
- Lead team of 3 graduate students to realize smart light fixtures with inkjet-printed integrated sensors for EATON.
- **Co-founder** Atlanta-based tech startup Atheraxon.

Approved research grants

- NSF I-Corps (amount: \$50,000).

Qualcomm, CA (USA)*Co-op Antenna Engineer*Project: Design 5G Phased antenna array for handheld devicesKey responsibilities:

- Design & optimize single and dual band 5G phased array antennas.
- Ran process corner and material characterization simulations to evaluate overall performance variation due to fabrication tolerances.

Microsystems Tech. Lab, Royal Institute of Technology (Sweden)*Research Graduate*Project: Design novel on-chip antennas for 77 GHz automotive radar applications.**University of Technology Petronas (Malaysia)***Research Graduate*Project: Fractal antenna design for MIMO systems.**National Uni. of Computer & Emerging Sciences (Pakistan)***Assistant Professor, 2011-14*Taught courses: Electromagnetic Theory, Wave propagation, Antenna theory, Microwave Engineering, Digital Logic Design & Freshman Physics LabOther responsibilities

- Member of EE program *accreditation committee* and *undergraduate curriculum committee*.
- Supervised four (4) undergraduate final year project groups.
- Established undergraduate physics lab – designed lab manual, experiments and in-house lab equipment.

LUMS – School of Science & Engineering (Pakistan)*Teaching Fellow, 2009-13*Taught courses: EM fields & waves, Introductory electronics, Digital Logic Circuits and Signals & systems.Other responsibilities

- Member of *accreditation & industrial liaison committee*.
- Member of *undergraduate curriculum committee*.
- Supervisor for four (4) undergraduate summer interns.

University of Engineering & Technology, Taxila (Pakistan)*Lecturer, 2008-09*Taught courses: Linear Algebra, Differential Equations & Queuing TheoryOther responsibilities:

- Head of *Mathematics & Communication system* committee.
- Mentored TA for queuing theory course.

University of Engineering & Technology, Taxila (Pakistan)*Teaching/Research Associate, 2008-09*Taught courses: Computer programming and Electronics (also managed their labs)

Publications **Books**

Workshops & Talks

1. Origami-inspired shaped reconfigurable tunable RF structures using additive manufacturing technologies – *IEEE Int. Sym. on Ant. and Prop.*, Atlanta, 2019
2. Next generation of origami-based tunable RF structures using additive manufacturing – *FlexTech Conference*, Monterey, CA, 2017
3. 4D RF structures for next-generation of outer-space and terrestrial applications – *IEEE New South Wales AP/MTT chapter (Australia)*, September 2020

Awards

Fellowship/Scholarships

- **Fulbright Scholarship** (2014-19) – covered 5 years of tuition & monthly stipend of Ph.D.
- **Graduate research assistantship** (2015-19) by Georgia Institute of Technology
- Awarded **NSF I-Corps Fellowship** (2018)– grant money: \$50,000.

- **Swedish Institute/Higher Education Commission Scholarship** (2006-08) – covered 2 years of tuition and monthly stipend for MSc.
- **Graduate research fellowship** (2005) by University of Technology Petronas, Malaysia.

Academic Accolades

- Nominated for **Cleaver award 2020** for best Ph.D. proposal at Georgia Institute of Technology.
- **Honorary mention** for Best student paper competition at International Microwave Symposium (IMS) 2019 (Boston, USA).
- **Honorary mention** for 3-Minute Thesis (3MT) competition at IMS 2019 (Boston, USA).
- **Winner** of 3MT competition at IMS 2018 (Philadelphia, USA).
- **Finalist** for 3MT competition at IMS 2017 (Hawaii, USA).
- **2017 gold medal award** at 20th Archimedes Inventions and Innovative Technology Salon held at Moscow.
- **Best project award 2007** for Wireless Networks at KTH Sweden.
- **5th and 2nd highest scoring student** in the university and class during BSc. at UET, Taxila.
- **Received distinctions** in every semester of undergraduate studies (2001-05)

Others

- Awarded **two travel grants** by HEC (Pakistan) in 2013 (most by any faculty in a year) to present papers at EuCAP (Sweden) and META (UAE) conferences.
- Cash prize (Rs. 50,000) for **Excellence in Research** by NUCES (Islamabad) - 2013.

Professional & services

1. Mentor at National Incubation Center (NIC), Lahore, July 2020 - Present
2. Reviewer - Journals
 - Nature – Scientific Reports
 - IEEE Antenna & Wireless Propagation Letters (AWLPL)
 - IEEE Transactions on Antennas & Propagation (TAP)
 - Elsevier – Additive Manufacturing Journal
 - MDPI – Sensors
 - MDPI– Applied Sciences
3. Technical Review Committee Member
 - IEEE International Symposium on Antennas & Propagation
 - IEEE Radio & Wireless Symposium
